ADTC Announces our Brand Extension Launch into Expanded Human and Veterinary Health Initiatives

.....

We are excited to take the next steps in our corporate evolution with a brand extension designed to advance both human and veterinary health markets. The Animal Dental Training Center will now be doing business as the **ADTC Training & Conference Center** which gives our organization a new focus onto the future of continuing education and training for all medical professionals. With our full wet-lab capabilities, the Center will now serve as a venue for manufacturers and distributors alike to exhibit their products and equipment for personalized evaluation & hands-on training by groups or teams of health care professionals.

Over 20 years ago the Animal Dental Training Center (ADTC) became the world's first permanent and dedicated private facility for year-round continuing education in Veterinary Oral Surgery and Dentistry. Today we expand on that legacy of innovation and training excellence to provide a cutting-edge technical / education venue for human health care professionals.

EXPLORE OUR NEW EAST-COAST TRAINING & CONFERENCE CENTER

A turnkey solution for any event, workshop, technical training, or product demonstration, the ADTC Training & Conference Center is located just north of Baltimore, MD and features more than 8,000 square feet of world-class clinical meeting space, integrating state-of-the-art technologies and multi-function design in an ultra-modern venue. We've prioritized the highest levels of safety for all our participants by installing high filtration HVAC systems for heating and cooling. In addition to frequent outdoor air exchanges, these systems feature MERV-13 filters as well as in-duct UVGI (ultraviolet germicidal irradiation) air purification that reduces airborne and surface microbials, bacteria, and viruses. The facility also features touch-less lavatory fixtures, sinks, and soap dispensers.

FEATURES & AMENITIES INCLUDE

- Dedicated loading dock for shipping / receiving
- 4000 square feet of clinical procedure / lab space
- 50-seat lecture hall
- Production room with studio lighting for online streaming of procedures or product demonstrations
- Individual conference and breakout rooms with integrated audiovisual equipment and remote conferencing ability
- Modern dining area with on-site catering available and outside garden seating
- Custom dental / surgical / conference tables featuring:
 - » Full mobility & electronic lift for ergonomic height adjustment
 - » High intensity individual LED lighting
 - » Dental consoles configurable for both right / left-handed operators with built-in piezo scalers and electrosurge units.
 - » Convertible multi-use surgical or conference tabletops
- Easy travel to/from Baltimore-Washington International (BWI) Airport and nearby world-class destination amenities and dining in Baltimore's historic Inner Harbor
- Newly renovated hotel accommodation directly across the street (1-min walk) offering special room pricing for conferences and including full breakfast daily.
